[Gunnison ISCR project draft permit 9-18-17 update clean copy.docx](#)

Hi Nancy,

A redline and an unmarked copy are attached. This version includes changes made to address Cadmus, Excelsior, and EPA comments and concerns expressed over the past two weeks. There are a few questions or comments in the redline version regarding unresolved issues. Additional changes may be necessary to resolve those issues after receiving Excelsior's proposal discussed on the conference call on Friday and internal EPA review of key issues.

If you have any questions or comments, please let me know.

Thanks,

Jim
